Light Tower

LIGHT TOWER AL5000

Extra receptacle package available on 20 kW upgrade only.

Control box shown with optional Roda Deaco air shutdown system.

Specifications

- 30 ft (9.1 m) extended height floodlight produces enough light to illuminate 7-1/2 acres.
- Self-braking, erecting and extending hand-operated winch with self-lubricating steel cable is mounted inside the cabinet.
- Storage racks for light fixtures are also inside cabinet.
- Spring-loaded pin automatically locks galvanized 360° rotatable tower in upright position.
- Retractable power cord automatically recoils into protective rotatable mast sleeve to prevent damage when raising, lowering and moving tower.

- Light fixtures plug into weatherproof receptacle box at top of tower with UL and CSA-approved connectors.
- Individual quick-connect plug-in ballasts installed in galvanized steel boxes.
- Control panel is inside, away from the elements. Houses main and branch circuit breakers and hourmeter.
- Galvanized outriggers with pre-set position stops insure quick and proper spacing for safe operation in heavy winds.
- Single point lifting eye and forklift pockets provided for easy loading and unloading.

Light Tower AL5000
